

GREENCARE FOR TROOPS

Delivering Healthier Lawns and Yards for Military Families

Cleaner Air - Lawns trap carbon dioxide and produce oxygen resulting in cleaner air.

Mowing, fertilization, weed control and fall leaf clean up – The top four service volunteers provide military families.

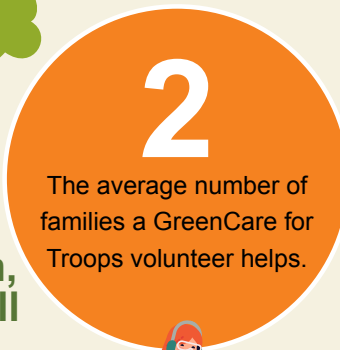

Increased Value
- A well-maintained yard increases a home's value by 10 to 15 percent.

Cooler Grass - Grassy areas can be up to 60 degrees cooler than the surrounding pavement.

Safe Spaces - Safe yards help kids relieve stress and anxiety when worried about a parent on deployment.

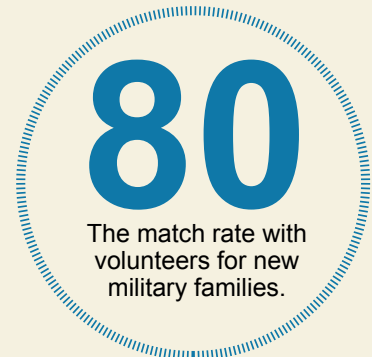

The average number of families a GreenCare for Troops volunteer helps.

20 – The number of years GreenCare for Troops has been assisting families of deployed military personnel.

20,000 – Number of military families who have registered for GreenCare for Troops since program's inception

The match rate with volunteers for new military families.

The year GreenCare for Troops was launched

\$20 million – Estimated value of annual services provided to military families and veterans through GCFT.

60 million

The square footage of grass, trees and shrubs that have been cared for by volunteers since the program's inception.

Priceless – The peace of mind and enjoyment that comes from providing military families access to a greener, healthier, cooler Earth.
